DIRECTIONS FOR STARCHING

STARCH: Dissolve ¼ cup starch in ½ cup of cold water. Boil about 1¼ cups of water, remove from flame, then slowly stir the starch mixture into boiling water stirring constantly. Place back on flame until it thickens. As soon as starch is cool enough to handle, dip item and squeeze starch through thoroughly. Wring out extra starch, it should be wet with starch but there should be none in spaces. Pin center in position according to size and leave until thoroughly dry. If steam iron is used iron after it is dry. If regular iron is used dampen slightly before pressing. Pin in position and leave until thoroughly dry.
